

CUSTOM BREATHING AIR TRAILERS

BUILT TO MEET YOUR DEPARTMENT'S NEEDS

- We use tried and true Bauer compressor systems, available as either diesel, gas or electrical, from 10HP to 20HP
- Bauer fill stations that meet NFPA 2016 standards – 1, 2, or 3 positions with cascade panels for remote filling
- Fill storage cylinders from 6000psi, 5000psi to 4500psi with 10-year hydrostatic test dates assembled to requested numbers
- Generators can be either trailer mounted or mobile on a cart to power the trailer system on scene
- Workstation areas built for working on SCBA units, monitoring fire personnel on scene, flow testing, and more.
- Cabinetry and storage racks for SCBA cylinders
- Cool down areas with A/C can be created to have for resting fire fighters on scene
- Scene lights for outside whether projecting, tripod, or basic LED lights
- Dual drive systems to work with generator power on scene or powered up by electrical at station
- Custom colors and vinyl graphics available

Sunbelt Fire is now offering custom built breathing air trailers for your departments. These custom trailers can be fabricated to your specifications, with workstations, storage bays and cabinetry made specifically for your SCBA cylinders, compressors, and more. Contact us today to schedule a demo and have your specs and requests reviewed for a quote.
