COMMERCIAL TANKER

SPECIFICATIONS

RUGGED YET COMPACT.

Commercial tankers are manufactured with the same proven technology and superior quality associated with all E-ONE apparatus. E-ONE tankers are rugged yet easy-to-operate vehicles designed to meet demanding suburban, rural and urban-interface operational needs. E-ONE commercial tankers are available on two- or four-door Freightliner®, International®, Peterbilt® or Kenworth® chassis with all-welded extruded-aluminum or stainless steel body with poly tanks. Tank designs range from full width or narrow, rectangular wetside or dryside and tank sizes range from 1500- to 4000-gallons with stainless steel plumbing. Commercial tanker pumps range from 500- to 2000-GPM in side-mount modules or under tank configurations.

When the scene demands large amounts of water, the E-ONE Tankers answer the call.

OUR VEHICLES CONNECT AND PROTECT
PEOPLE AROUND THE WORLD EVERY DAY.
