GLOBE®

NOTHING COMPARES TO ATHLETIX™

New material technology enables all-new athletic design with unique stretch fabrics that allow closer, body-contoured fit to provide unprecedented range of motion with less bulk, more flexibility, and lighter weight.

MATERIALS

- **NEW PBI® STRETCH** fabric with **KEVLAR®** allows less bulky fit with unprecedented range of motion and more flexibility, while providing premium thermal break open protection.
- New **NOMEX® NANO** thermal barrier material is thinner, lighter, more flexible, more breathable, and quicker drying.
- New **3M™ SCOTCHLITE™ COMFORT TRIM** reflective material is segmented and heat sealed to be lighter, more flexible, and breathable without sacrificing visibility.
- **GORE® CROSSTECH® BLACK** moisture barrier provides the highest breathability in the widest range of environmental conditions, to reduce heat stress.

JACKET FEATURES

- **MORE STREAMLINED DESIGN** with vertical seaming reduces oversize in front chest, bulk under SCBA, and stiffness in front closure.
- **STRETCH PANELS** in the thermal liner work with the stretch outer shell to provide maximum range of motion and minimum restriction.
- **LESS BULKY, SOFTER, AND MORE ADJUSTABLE COLLAR** interfaces better with hood and helmet and reduces head restriction.
- **YOCCO™ DRAG RESCUE DEVICE** is easy to deploy when you need it, out of the way when you don't.
- **DRD OPENING IN THE COLLAR** takes bulk out of the upper back and allows better access above the SCBA.
- **ELASTICIZED SIDE PANELS** provide flexible, more athletic fit at the waist.
- **OVERLAPPING FRONT CLOSURE WITH OPTIONAL ZIPPERGRIPPER™** (patent pending) and simplified collar and throat tab reduce bulk and permit quicker and easier donning and doffing.
- **ARTICULATED ELBOWS** for body-contoured fit with minimum restriction.
- **CARGO POCKETS WITH GRIP TABS** for quicker and easier access to all your stuff in the minimum amount of time.
- **TELESCOPING SLEEVE BAND WITH DOUBLE WRISTERS** keeps water out and adds thermal protection.
- **LINER ACCESS OPENING** allows for easy access between the layers.

PANTS FEATURES

- **LOWER RISE, LESS BULKY DESIGN** fits closer to your body, and deeper fly opening permits quicker and easier donning and doffing.
- **ADJUSTABLE BELT CLOSURE** makes the pants fit like jeans or can be replaced by your choice of Class 2 Seat Harnesses or Personal Escape Belt, initially or down the road.
- **BANDED INSEAM DESIGN** allows stretch in all directions and reduces binding in the crotch.
- **STRETCH PANELS** in the thermal liner work with the stretch outer shell to provide maximum range of motion and minimum restriction.
- **ELASTICIZED SIDES** provide flexible, more athletic fit at the waist.
- **ARTICULATED KNEES** with cathedral knee patches and SILIZONE® knee pads are built for unrestricted and protected crawling.
- **ANGLED SIDE POCKETS WITH GRIP TABS** for easier access to all your stuff in the minimum amount of time.
- **PADDED H-BACK RIPCORDER SUSPENDERS** attach to horizontal loops, so there is no metal hardware to dig in or pull out.
- **LINER ACCESS OPENING** allows for easy access between the layers.
- **REVERSE BOOT CUT** is shorter in the back, to avoid premature cuff wear.

HARNESSES OPTIONS

- Choice of **SERIES 1 INTERNAL HARNESSES** with floating leg loops and low-profile waist buckle, **SERIES 2 INTERNAL HARNESSES** with floating leg loops, hook and dee closure, and choice of auto-lock carabiner, or **SERIES 3 INTERNAL HARNESSES** with floating leg loops and a hook and dee style closure.
- **PATENTED FLOATING LEG LOOP SYSTEM** of all Globe harnesses is hardware free and made from **KEVLAR®**. Leg loops stay down out of your business except when you load the harness, pulling them up into the correct seat position to equalize the load.
- With integrated harness, consider a **ROPE POCKET** for rope storage and/or an **ESP POCKET**, which stores rope, hook, and descender with easy access for deployment.
- **PERSONAL ESCAPE BELT OPTION** replaces standard belt closure.

Because **ATHLETIX™** is loaded with standard features and due to the nature of the stretch fabric, additional options have been specially designed to work with **ATHLETIX™**.
