GLOBE[®]

BEING LIGHTWEIGHT AND FLEXIBLE ARE HALLMARKS OF THE G-XCEL® CHASSIS.

With a longer back and shorter front on the jacket, you get more overlap where you need it with less where you don't. So everything about this contemporary design feels just right. The low-rise pants provide a modern fit, and with the added length you need for mobility in the knee and seat to bend, the pants don't ride down. Together with the extended back on the jacket, you can maintain generous overlap even with these lower-rise pants.
